

Traditional Ayurvedic & Herbal Medicine Guide

MediCart Clinical Reference Library | Verified Guidelines

1. Ashwagandha (*Withania Somnifera*)

An adaptogenic herb that helps the body manage stress. It lowers cortisol levels, improves cognitive function, enhances sleep quality, and supports overall vitality. Standard adult dose is 250mg to 500mg of extract once or twice daily, taken with warm milk or water.

2. Triphala Powder

A traditional blend of three fruits: Amla (*Emblica officinalis*), Haritaki (*Terminalia chebula*), and Bibhitaki (*Terminalia bellirica*). Primarily used for digestive support, colon cleansing, and relieving constipation. Dose is 1/2 to 1 teaspoon of powder with warm water before bedtime.

3. Tulsi (Holy Basil) Drops

Possesses immunomodulatory and anti-inflammatory properties. Extremely useful for cold, sore throat, and respiratory infections. Add 3 to 5 drops of liquid Tulsi extract to warm water or tea twice daily.

4. Neem & Giloy Juice

- **Neem Capsules:** Purifies blood, supports liver health, and controls inflammatory skin disorders like acne.
- **Giloy Juice:** Powerful antipyretic and immunomodulator that boosts platelet count during chronic viral fevers.
